SCORP8000

Scorpion wall mounted controller

General

Scorpion is a solution for testing hard-to-access detectors. It ensures all smoke detectors can be tested at any time – regardless of location.

SCORP8000

SCORP8000 is a ground level controller for up to 8 Scorpion heads. It allows each Scorpion head to be controlled from a convenient, ground level location, initiating and ending the test as required. It also controls the power distribution supplied from a portable battery baton to the Scorpion heads, allowing the removal of the battery from site to prevent tampering with the system.

Details

- Activates installed Scorpion system
- Controls up to 8 Scorpion head units
- Powered by TH013BB (Solo 770) battery baton via the SCORP60 battery cable

SCORP8000

Scorpion wall mounted controller

Technical specifications

Electrical

Power supply type	Batteries
Operating voltage	7.2 VDC

Physical

Physical dimensions	155 x 150 x 37 mm (L x W x H)
Net weight	<500 g
Colour	Grey

Environmental

Vandal proof	No
Operating temperature	5°C bis 45°C
Storage temperature	-10°C to +50°C
Relative humidity	0 to 85% non-condensing
Environment	Indoor
IP rating	IP40

Regulatory

Compliancy	CE, REACH, RoHS 3, WEEE

Compatible products

Category	Reference	Description
Test Equipment	SCORP60	Scorpion battery cable
Test Equipment	TH013BB	Replacement battery baton for use with fire test kits
