SCORP7000

Scorpion portable controller and battery cable

General

Scorpion is a solution for testing hard-to-access detectors. It ensures all smoke detectors can be tested at any time – regardless of location.

SCORP7000

The SCORP7000 is a portable controller which, used in conjunction with a SCORP25 access point, can activate individual Scorpion head units connected to smoke detectors.

SCORP60

The SCORP60 is a connection cable for ground controlled Scorpion installations. It connected the TH013BB battery baton to the SCORP7000 or SCORP8000 controllers to allow power distribution to the Scorpion test heads.

Details

- Activates installed Scorpion system
- Connects to a SCORP25 access point
- Powered by TH013BB (Solo 770) battery baton via the SCORP60 battery cable
- Portable - for use over multiple sites
