PM861

Fuente de alimentación, 24 VCC, 1 A

This efficiency cost effective power supply is ideal for use in Fire, Access control and general security applications.

Featuring a regulated 27.6 Vdc output supplying continuous full rated current to load plus additional current for charging twox12V standby batteries.

The highly efficient switch mode design ensures low operating costs, generates less heat and with a small physical size increases the room available for additional PCBs or cables. The modular construction simplifies maintenance.

Detalles

- Fault and mains present indicators
- Battery disconnect to prevent deep discharge
- Tamperswitch
